MOBILE ISOLATION BOOTH

SR

F1 OPTION
ST-01 Desk
ST-01 High Chair

APPLICATION:

Smallest in the family, space saving phone POD for single person occupancy is the best seller for start-ups and international corporations alike. It's design makes it a perfect fit to any creative workspace. Use it for quiet phone and video calls, coffee break or any other activity where privacy is required.

PRODUCT FEATURES:

Aviation-grade aluminium frame, scratch resistant carbon composite soundproofing panels covered with acoustic PET polyester fiber, tempered glass.

NOISE REDUCTION:

NRC 25.7dB (+/- 5dB)

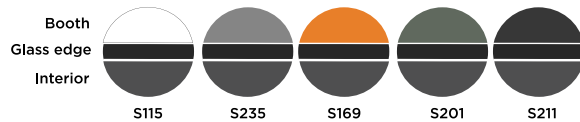

BASE MATERIAL:

Aviation-grade aluminium frame, scratch resistant carbon composite acoustic panels covered with acoustic PET polyester fiber, double-laminated glass.

SIZE & WEIGHT:

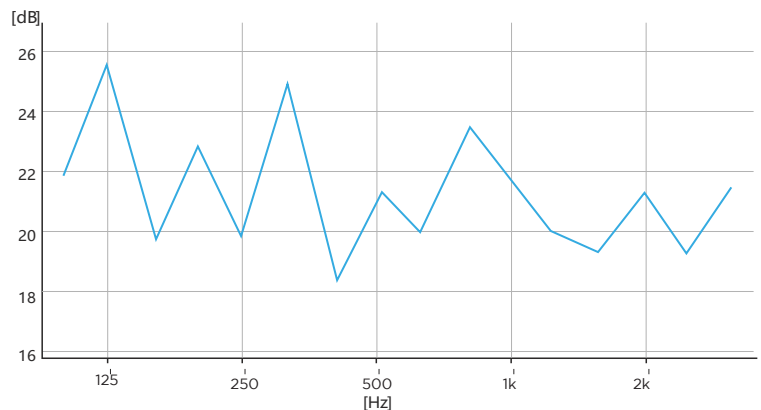

Outer: 936mm(D)*1000mm(W)*2300mm(H)
Inner: 840mm(D)*900mm(W)*2140mm(H)
239 kg

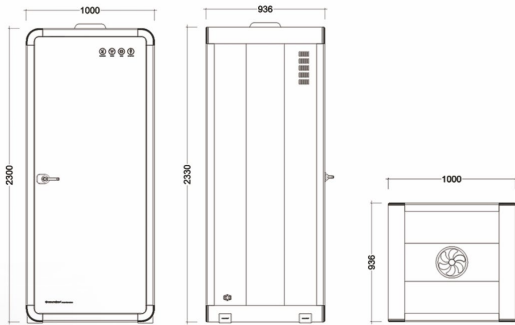

COLOR OPTIONS:

NOISE REDUCTION COEFFICIENT

NRC: 25.7dB (+/- 5dB)

LOW CARBON

Soundbox is the pioneering company in recycled carbon plastic materials usage in silence booth wall panels production.

Each Soundbox booth:

Carbon footprint $\leq 0.071\text{kg CO}_2\text{e}$
Energy consumption $\leq 0.4\text{MJ}$
Air acidification $\leq 0.0001\text{kg SO}_2\text{e}$,
Water eutrophication $\leq 0.00002\text{ PO}_4$

We care for our global home with technology!

Product features:

Aviation grade aluminium frame
Carbon composite sound insulating wall panels
Laminated, double glazed and tempered acoustic safety glass
110-240 V/ 50-60 HZ & 12 V - USB
(1) electrical outlet & (2) USB charge ports
External open port for extra data/power cable needs
4000 K LED natural light
Low noise, high air pressure turbine fresh air system, 125m³/h
Motion sensor
60% of interior covered with PET sound absorbing polyester fiber panels
Power consumption 21W (S), 37W (M), 87W(L) and 104W(XL)
1 year manufacturer's warranty
