HIVE

HIVE DATASHEET – **NUCLEUS**

NUCLEUS

ENCLOSURE

Our brand-new Nucleus is a cutting-edge 1U enclosure designed to house up to two Beeblades, making it the ultimate solution for compact yet powerful media workflows. The Nucleus is available to purchase as a standalone enclosure or with one or two Beeblades pre-installed.

This innovative chassis integrates seamlessly with the Minima, Osmia, Pluto, and Nexus Beeblades, offering flexibility to suit a wide range of professional applications—from HD to 8K playback. Engineered for efficiency and performance, the Nucleus delivers exceptional scalability, empowering users to tailor their setups with precision. Whether you're in a fixed installation or on a demanding concert tour, the Nucleus provides the backbone for reliable, high-performance media delivery.
