BEEBOX

ENCLOSURE

HIVE BEEBLADE ENCLOSURE

INGENIOUS BY NATURE

Our versatile Beebox is a compact and robust enclosure designed to house a single Beeblade, delivering the power and performance of our media technology in a streamlined form factor. Perfect for applications where space is at a premium, the Beebox provides a focused solution without compromising on capability.

Compatible with the Minima, Osmia, Pluto, and Nexus Beeblades, the Beebox supports workflows from HD to 8K, making it ideal for targeted installations or portable setups. Engineered for efficiency and dependability, the Beebox is a powerful, space-saving option for professionals who need robust performance in a compact package.
