

HIVE

HIVE DATASHEET – **BEEHIVE**

BEEHIVE

ENCLOSURE

Our revolutionary Beehive is a state-of-the-art blade style enclosure designed to house up to 16 Beeblades, making it the world's highest-density media engine.

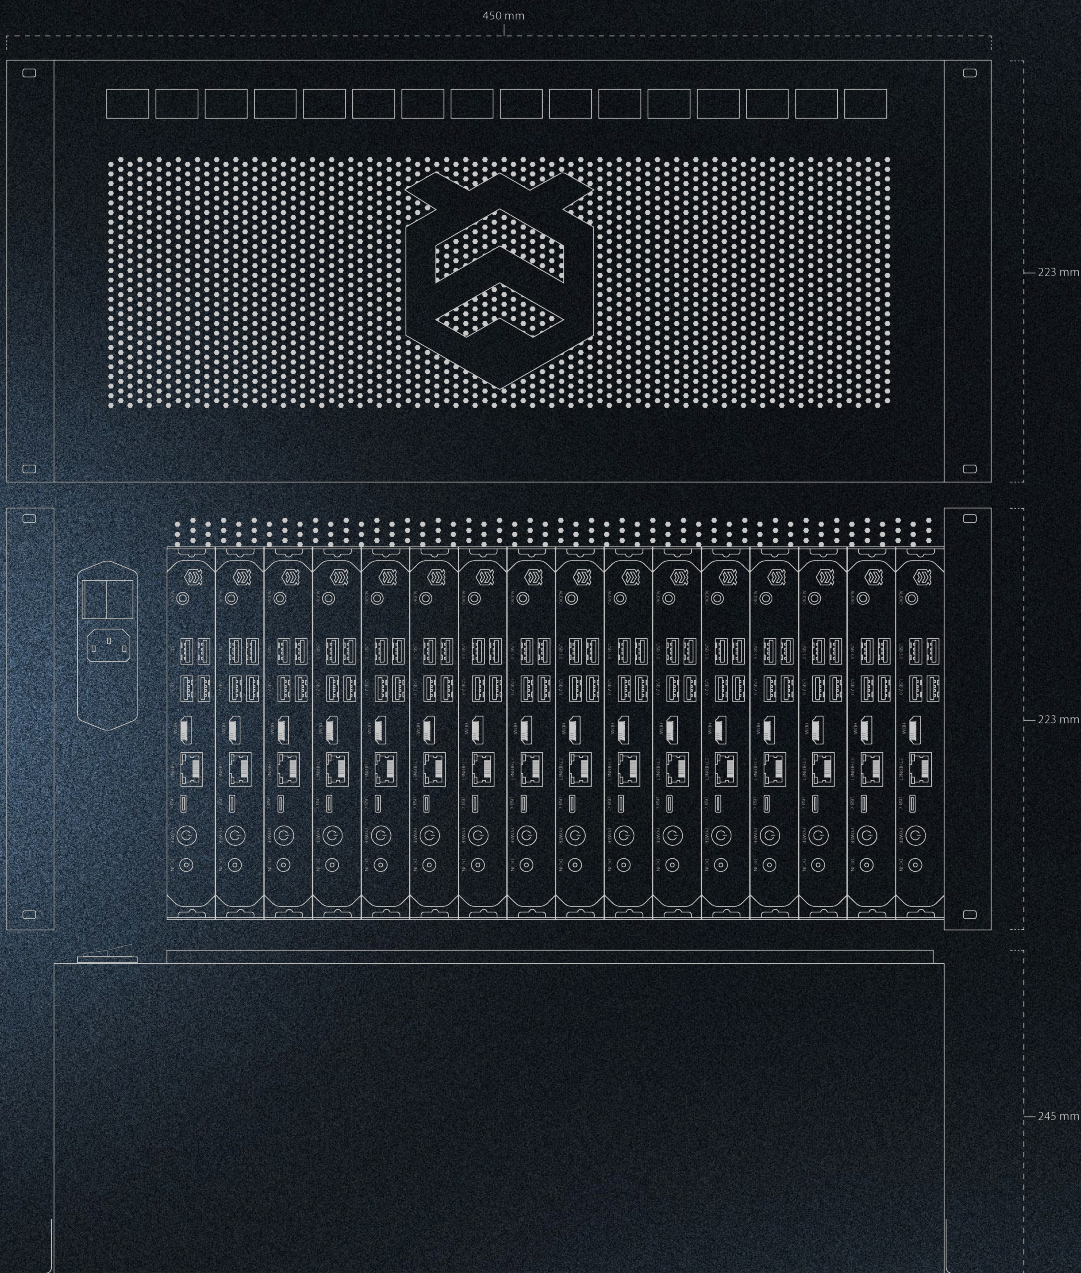

Engineered for unparalleled scalability and performance, the Beehive is the ultimate solution for professionals needing maximum output density in a compact footprint.

With support for the Minima, Osmia, Pluto, and Nexus Beeblades, the Beehive is built to handle workflows ranging from HD to 8K with seamless efficiency. Whether powering a live event or complex installation, the Beehive sets a new benchmark for high-capacity media systems, delivering exceptional reliability and versatility for even the most demanding applications.

PRODUCT

DIMENSIONS / SPECS

Dimensions (mm) 450w 245d 223h

Unpopulated Weight (g) 9,000

Power Consumption (W) 1,900

Display Info 2 Colour OLED

Fan Level (Db) 53

Operating Temp Range (°C) 0 - 25
